

# RENTAL HTP-CPS

## HV MODULES WITH HIGHLY STABLE OUTPUTS

POSITIVE PROBLEM SOLVING **+ =**

The HTP-CPS are high voltage PSUs with maximum outputs of either +5kV to -20kV. Rated at 10W, these units provide a very stable output with low ripple and noise.

The output voltage and current limits are set over the analogue interface. The V & I values can also be monitored and the output enabled. As standard the HTP-CPS units are built into compact metal cases with the output provided via a 600mm bare ended HV cable.

- + Can be Used in HTP-THQ Series
- + High Voltages up to -20kV
- + Stable Output Voltage
- + Very Low EMI
